Welcome to Alabama Eye & Cataract Center, P.C., which is located on the UAB campus in Birmingham, Alabama, at UAB Highlands Hospital. We are a specialized eye care practice providing comprehensive treatment for disorders of the anterior segment of the eye, including the lens and cornea. Keeping with our quest for providing leading edge patient care, our doctors practice comprehensive ophthalmology and specialize in both cataract and corneal-refractive surgery. In addition, we offer solutions to complex problems for patients with prior cataract surgery and/or prior refractive surgery, including LASIK and radial keratotomy.

At the time of your visit, please bring all of your completed forms, insurance cards, and driver's license (or another valid form of picture ID). For your convenience, you may download the Patient Registration Form and the Medical History Form from our website at www.alabamacataractcenter.com. Be sure to list all prescription medicines, vitamins/minerals, and herbal preparations that you are currently taking.

If you wear contact lenses or glasses, remember to bring them with you. Also include boxes from the contact lenses currently being worn or the written contact lens prescription if possible. If you are being evaluated for either refractive or cataract surgery, please be advised that you should not wear soft contact lenses for two weeks prior to your visit. If you wear rigid gas perm contact lenses you should refrain from wearing these contact lenses for one month prior to your appointment.

Please feel free to call if you have any questions concerning your appointment. Thank you for choosing Alabama Eye & Cataract Center, P.C. for your ophthalmic care.

Very Sincerely,

The Staff of Alabama Eye and Cataract Center, P.C.

Marc A. Michelson, M.D.
